

To Whom It May Concern:

In order to maintain a current status for the Healthcare Professional listed below, this form is presented as a temporary certification in lieu of the successful graduation and licensure that has not yet been received in order to be recognized as a Registered Nurse. The signature below certifies that the named employee is currently enrolled in nursing school and working towards completing all requirements to graduate from the nursing program and therefore negates the need to complete the LPN Supervisory Course at this time. Failure to graduate and pass boards would result in needing to successfully complete the LPN Supervisory course before actively working as an LPN with GrapeTree Medical Staffing. This form is to be completed in its entirety, signed and dated. Please contact us if we can be of further assistance.
